**Subject:** National Mining Team members for EOC support

Dana,

Per your earlier request, here are some National Mining Team Members that the EOC\_Technical Specialist, OSRTI or others may want to tap for help on issues/questions that may come up while Ed, John and others are out of pocket. These members include:

Cami Grandinetti and Beth Sheldrake - Region 10 (They in turn could tap Dave Tomten, Bill Adams and Ken Marcy)

Jeanne Geselbracht and Carer Jessop in Region 9

Mark Purcell in Region 6

Krista McKim in Region 5

Loften Carr and Candice Tiechert in Region 4

Bette Conway in Region 3 (Even though she does coal she know mining issues well)

Jim Hanley, Joy Jenkins and Carol Russell in Region 8 (They are great but there may be questions on the Region they are from - your call)

Elaine Suriano - Headquarters Office of Federal Activities

Van Housman - OECA RCRA Enforcement

Michele Mahoney and Kirby Biggs in OSRTI - If they don't know they could reach out to the above list.

Thanks!

Not sure how spell check missed your typo. Thanks for flagging; I just got off the phone with Josh and others in the EOC and they are looking at it as we speak. Thanks! – Dana

Ps – Ed, I might want to put you on speed dial this coming week as questions come in and Shahid and others are on the road. I know you have a public meeting one day, but am wondering if you might be an on-call resource if questions come up. Let me know; thanks - Dana

There is an apparent one row shift for the total data in Column Q on the spreadsheet. I apologize for my type in my message below where I misspelled shift.

**Subject:** Fw: Gold King data  
**Importance:** High

Josh and Dana,

Please see Ed Hathaway's message below as there may be an error on the attached spreadsheet from EPA's website on the Gold King Response. Column Q may be off for not only Lead but also Zinc which shows up as Zero. Column Q also has numbers that I am wondering about for total cadmium, arsenic, and nickel. Maybe it is just a spreadsheet error. Could we please check with the Region. Thanks!

**Subject:** Gold King data

Shahid,

Not sure if you can address this. The attached spreadsheet is on the EPA website for the Gold King response. Column Q row 43 shows lead as 8,700 ug/l. There is obviously a row shift for that column in the spreadsheet. The sample ID is ADW-021-150810-11. Would not want the news reporting 8 ppm of lead in the water.

Not sure if you can get this message to someone who can correct the spreadsheet.

Ed
